In equation (10), in the first equation of section 3.2, in equations (23), (24) and in equation (A.5) the expression

$$\frac{[\tanh(\beta J) - \tanh(\beta h)]^2}{[1 - \tanh(\beta h)]^2 \tanh(\beta J)} \quad (1)$$

must be changed to the following:

$$\frac{\tanh(\beta J)[1 - \tanh(\beta h)^2]}{1 - \tanh(\beta J)^2 \tanh(\beta h)^2} \quad (2)$$
